For the grown-up

- Every sum here crosses a ten. For 38 + 5, make the next ten first: 38 + 2 is 40, then 3 more is 43.
- For 42 − 7, take away 2 to get to 40, then 5 more: 35.
- A common slip is forgetting the new ten: 38 + 5 = 33. Ask your child to check by counting on.
- Once most are right, time it: the app's version asks for 20 in two minutes.
