For the grown-up

- Only the ones change on this sheet. For 43 + 5, keep the 4 tens and add the ones: 3 + 5 is 8, so 48.
- If they are stuck, count on or back in ones from the bigger number, on fingers or a 100 square.
- A common slip is changing the tens instead: 43 + 5 = 93. Ask: is that a small change or a big one?
- When this feels easy, try the sheet where the sums cross a ten.
