For the grown-up

- The sums get harder down the page: six within 10, six with teens, then six that cross 10. Stop when it stops being fun.
- For 8 + 5, make 10 first: 8 and 2 make 10, then 3 more is 13.
- For 13 – 5, take away 3 to get to 10, then 2 more: 8.
- Note the first group of six where two or more go wrong. That is the thing to practise next.
