For the grown-up

- A 100 square or a tape measure helps: find the number, then step one on or one back.
- If ‘comes before’ is hard, count back from the number together: 40, 39.
- Expect slips where a new ten starts: after 39, some children say ‘thirty-ten’. Count across the ten aloud together: 38, 39, 40.
- When this feels easy, try the ‘in between’ sheet.
