For the grown-up

- Read each track aloud with your child, from left to right. The gap is the number you say in the middle.
- If they are stuck, cover the right-hand number and ask what comes just after the left-hand one.
- The tens are the tricky ones: between 39 and 41 is 40, and between 98 and 100 is 99. A 100 square makes them easy to see.
- When this feels easy, ask for the number 10 more or 10 less, on the same 100 square.
